

For The Human Movement™

MBT® Footwear Patents

MBT® is always supportive of being involved in research and studies that allow a better understanding of the needs and preferences of our consumers and the possible benefits of our patented shoe technology.

MBT® is proud to have a loyal consumer base who tell us frequently how satisfied they are with our shoes, and we will always strive to continue to please our loyal fans as well as to reach new consumers with new patents, style updates and new designs as the brand develops.

MBT® footwear includes unique features that are patented in the United States and in a variety of countries around the world. The applicable patents are listed below and constitute notice of our patent rights in the United States under Section 287(a) of Title 35 of the United States Code:
